MEMORANDUM

May 6, 1977

TO: Pat Haight, Director
Field Program

FROM: Jimmie D. Hankins, Env. Supervisor *JDH*

SUBJECT: Illegal Liquid Waste Disposal

On May 4, 1977, Ross Singleton and I observed a large area upon which it appears liquid waste is being dumped. We were unable to confirm this as fact because the area was posted with no trespassing signs and we felt due to the late hour we should not go on the site. From the road an area of possibly four (4) to five (5) acres was visible on which there appeared to be several hundred 55 gallon drums. From that distance it was not possible to determine if they were empty or filled.

It is my understanding that the Division of Water Quality has brought legal action against this site for possible water contamination. We need to get whatever information the Division of Water Quality has concerning this site as well as monitor the site via our own staff.

This site is located approximately $\frac{1}{4}$ mile south of the Jefferson County-Bullitt County line just off of Park Road. Attached is a copy of the Brooks Quadrangle topo map marking the location of the site.
